

As a 25-year member of RCCFO, I have officiated in over 1500 football games, from youth, all the way to the semi-pro level. I have also umpired baseball for 24 years with the Rochester District Umpires Association, serving on the board of directors for 14 years, and as president 1 term. I also represent RDUA on the sports board council. With that experience, I have a very good idea of the pros and cons of being an official.

If elected to the board of directors, I will fight tooth and nail to raise youth fees, get mileage stipends for miles traveled, and have all meetings via zoom.

I am pro-labor, and if elected will vote and make decisions which are favorable for our officials safety, well-being, and most importantly, wallet.

If you want to make more money, and take less crap on the field, I am your man.

Thank you for your attention

Paul Marsh
